

BOARD OF LIGHT AND POWER
Grand Haven, Michigan
Schedule LS-16
Lighting Service
Page 1 of 3

AVAILABLE

Lighting service is available under this schedule in the entire area served by the Board's electric distribution system.

APPLICABLE

To public street lighting and customers for area outdoor lighting service where all facilities for service including fixtures, controls, poles, transformers, secondaries, lamps and other appurtenances are owned and maintained by the Board.

This rate is also applicable for secondary voltage energy only street lighting service where all facilities for service including fixtures, controls, poles, transformers, secondaries, lamps and other appurtenances are owned and maintained by the customer or owned by the customer and basic maintenance (bulb and ballast) is performed by the Board. Customer owned equipment shall be subject to the Board's approval.

Service locations shall not be intermixed with luminaries owned by the customer and by the Board.

This rate is not available for resale purposes.

CHARACTER OF SERVICE

Alternating current, 60 hertz, single phase or three phase. Voltages as approved by the Board of Light and Power.

For Board owned service the charges will be based on flat monthly charges for the facilities.

For secondary energy services the charges will be based upon the metered usage. At the Board's option, such service may be unmetered based on the capacity requirements in kilowatts of the lamp(s), associated ballast(s), and control equipment, assuming 4,200 burning hours per year. The capacity requirement of the lamp(s), associated ballast(s), and control equipment for each luminaire shall be determined by the Board from specifications furnished by the manufacturer of such equipment, provided that the Board shall have the right to test such capacity requirements from time to time. In the event that said tests show capacity requirements different from those indicated by the manufacturer's specifications, the capacity requirements shown by said test shall control. The customer shall not change the capacity requirements of the equipment owned without first notifying the Board in writing of such changes, and the date that they shall be made.

Basic maintenance will include bulb and ballast replacement only. All other repairs, replacements, and maintenance performed by the Board will be billed to the customer.

pole and span of wire not to exceed 160 feet from the nearest or most suitable pole to the point designated by the customer for the installation of said lamp(s).

MONTHLY RATES (Customer Owned and Board Maintained Equipment)

Energy Charge:

17.25 cents per kWh for all kWh.

MONTHLY RATES (Customer Owned and Maintained Equipment)

Energy Charge:

10.50 cents per kWh for all kWh.

TAX ADJUSTMENT

Bills shall be increased to any customer receiving electric service from the Board of Light and Power within the territorial limits of a tax authority who imposes any new or increased tax on the Board's electric operation after the effective date of this rate schedule. New or increased taxes include franchise, occupation, gross receipts, license, excise, privilege or similar type tax.

Each customer's bill affected within the specific territorial limits of a tax authority shall be increased to offset such new or increased taxes in conformity with the basis that such total tax is imposed upon the Board of Light and Power's electric operation.

PAYMENT

Monthly bills will be rendered NET, payable on or before the due date of the net monthly bill. The gross monthly bill, which is 102 percent of the net monthly bill, will be collected if the monthly bill is not paid on or before the due date.

TERMS OF SERVICE

Service Rendered under this schedule is subject to the Board's standard rules and regulations.
