INDEPENDENT AUDITORS' REPORT

September 30, 2019

Board of Directors Grand Haven Board of Light and Power Grand Haven, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the Grand Haven Board of Light and Power, Grand Haven, Michigan (an enterprise fund of the City of Grand Haven, Michigan) as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Grand Haven Board of Light and Power as of June 30, 2019 and 2018, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

As discussed in note 1, the financial statements present only the Grand Haven Board of Light and Power and do not purport to, and do not present fairly the financial position of the City of Grand Haven, Michigan, or the changes in its financial position or cash flows in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6 and the trend information on pages 27 through 30 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Grand Haven Board of Light and Power's basic financial statements. The supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules included in the supplementary information section of this report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2019, on our consideration of the Grand Haven Board of Light and Power's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Grand Haven Board of Light and Power's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Grand Haven Board of Light and Power (the Board), we offer readers of the Board's financial statements this narrative overview and analysis of the financial activities of the Board for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that is furnished in the financial statements and notes to the financial statements.

Financial Highlights

- Average retail sales revenues per kWh was increased through the Power Cost Adjustment by 3.20%. Retail rates remained unchanged in the fiscal year. Total operating revenues increased 6.05%, additionally drive by a 2.74% sales volume increase. These increased sales were primarily weather related during the summer months of the fiscal year.
- The BLP produced 37.5% less power using its internal generating assets in FY2019 as compared to FY2018. Total fuel expenses decreased accordingly by approximately \$3 million.
- With less power being generated, it was necessary for the BLP to purchase more and Net Wholesale Purchased Power increased by almost \$3.3 Million (64.7%).
- This net change in production and purchase power expenses resulted in increased customer revenues collections through the Power Cost Adjustment (PCA) of approximately \$1.2 million. The base cost used in the calculation of the PCA was adjusted upward by the Board in January 2019 and again in May 2019, effective in fiscal year 2020. Adjusting the base upward has the effect of lowering PCA revenues and average retail revenues per kWh. Accordingly, these increased revenues are not budgeted in FY 2020.
- The Defined Benefit Plan was closed for new hires July of 2017. A \$1 million payment was made by the Board in September of 2018 to reduce net pension liability. The net pension liability increased by \$1.7 million (future and legacy) as a result of December 31, 2018 actuarial adjustments to BLP groups within the plan resulting in a net increase in pension liability of approximately \$700,000 over that reported in FY 2018.
- A major \$5.9 million 3-year transmission and distribution project was completed in FY2019.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Board's financial statements. The Board's basic financial statements comprise two components: 1) financial statements, and 2) notes to the financial statements.

The Statement of Net Position presents information on all of the Board's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Net Position presents information showing how the Board's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences, accrued interest, etc.).

Notes to the financial statements. The notes provide additional information that is essential for a full understanding of the data provided in financial statements.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a Board's financial position. In the case of the Board, assets exceeded liabilities by \$49,890,546 at the close of the most recent fiscal year.

A portion of the Board's net position reflects unrestricted net position which is available for future operation while a more significant portion of net position is invested in capital assets (e.g., land, buildings, vehicles and equipment), less any related debt used to acquire those assets that is still outstanding. The Board uses these capital assets to provide services to customers; consequently, these assets are *not* available for future spending. Although the Board's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net Position

	<u>2019</u>	<u>2018</u>
Current and other assets	\$30,273,689	\$25,410,950
Capital assets	28,008,292	26,573,755
Total assets	58,281,981	51,984,705
Deferred outflows of resources	1,829,116	1,062,547
Other liabilities	2,268,063	1,607,657
Long-term liabilities	7,952,488	6,013,583
	10,220,551	7,621,240
Deferred inflows of resources		338,400
Net position		
Net Investment in capital assets	28,008,292	26,573,755
Unrestricted	21,882,254	18,513,857
	\$49,890,546	\$45,087,612

The total net position of the Board at June 30, 2019 is \$49,890,546 however, \$28,008,292 represents net investment in capital assets.

Changes in Net Position

A MARKET THE POST OF THE MARKET AND	2019	<u>2018</u>
Operating revenue	\$38,334,758	\$36,147,924
Operating expenses	30,217,064	29,672,860
Operating income (loss)	8,117,694	6,475,064
Nonoperating revenues (expense)	89,425	23,593
Change in net position before transfers	8,207,119	6,498,657
Transfers to the City of Grand Haven	1,904,185	1,802,224
Change in net position	6,302,934	4,696,433
Net position-beginning of year (restated)	43,587,612	40,391,179
Net position-end of year	\$49,890,546	\$45,087,612

GASB statement Number 83 "Certain Asset Retirement Obligations" was implemented during 2019 which resulted in a reduction in the Board's net position of \$1,500,000 at July 1, 2018 to reflect the Board's asset retirement obligation. During the year ended June 30, 2019, the Board had an increase in net position of \$6,302,934. The increase in net position for 2018 was \$4,696,433. Revenues and expenditures increased from 2018 to 2019 as a result of an increased power cost adjustment for energy billings and increased power and fuel cost.

Capital Asset and Debt Administration

Capital assets. The Board's investment in capital assets as of June 30, 2019, amounted to \$28,008,292 (net of accumulated depreciation).

Significant capital purchases during the year consisted primarily of equipment upgrades and replacements and construction projects.

The Board's capital assets are summarized as follows:

Total	\$28,008,292
Depreciable capital assets, net	27,249,769
Construction in progress	536,242
Land	\$ 222,281

Additional information on the Board's capital assets can be found in Note 3 of these financial statements.

Debt. At the end of the current fiscal year, the Board had total debt outstanding as follows:

Compensated absences \$365,358

Additional information on the Board's long-term debt can be found in Note 4 of these financial statements.

Factors bearing on future budgets

- No retail rate changes are budgeted in FY2020, except the change in the base used to calculate the PCA discussed above. Budgeted retail sales volume is 3.1% above actual sales in FY2019.
- Fuel unit costs are expected to increase by 5% in FY2020 due to lower efficient operations of the Sims Power Plant and lower quality coal anticipated as the remaining inventory is burned.
- More power will be purchased in FY2020, as required by less production.
- Official closure of Sims Power Plant and the Diesel Plant is scheduled for June 2020. FY 2020 Capital Budget includes \$1.2M for beginning demolition and site remediation activities.
- Capital improvements for 2020 also include installation of Automated Meter Infrastructure (AMI), estimated capital cost to be \$2.3 million.
- A change has been made to future annual pension payments to accelerate to 100% funding ratio in 10 years.
- FY2020's budget includes 58 Full Time Equivalent (FTE) employees. This number is 14 FTE's below FY2016. These reductions where obtained through attrition. Future attrition will reduce this number to an estimated 50 FTE's.

Requests for Information

This financial report is designed to provide interested individuals including citizens, property owners, customers, investors and creditors with a general overview of the Board's finances and to show the Board's accountability for the money it receives. If you have questions or need additional financial information, please contact the Board's Accounting and Finance Manager, 616-846-6250

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Grand Haven Board of Light and Power (the Board) conform to generally accepted accounting principles as applicable to governments. The following is a summary of the significant policies.

Reporting Entity

The Board is an Enterprise fund of the City of Grand Haven, Michigan (the City). It operates under the direction of the City Charter and City Council resolution. The Board provides electric services to users in the City of Grand Haven and portions of the surrounding area.

As provided by generally accepted accounting principles, the financial statements of the Grand Haven Board of Light and Power enterprise fund exclude the funds of the City of Grand Haven and applicable component units of the City of Grand Haven. There are no component units to be included. The criteria for including a component unit include significant operational or financial relationships with the Board.

Measurement Focus and Basis of Accounting

The financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The Board distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Board's principal ongoing operations. The principal operating revenues of the Board are charges for services. Operating expenses of the Board include the cost of electricity generation and purchases, transmission and distribution, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the Board considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Investments

Investments are recorded at fair value.

City policy and state statutes authorize the Board to invest in:

- a. Bond, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- d. Banker's acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20 as amended.

Receivables

All receivables are reported at their net value. Allowance for uncollectible receivables was immaterial at year end.

Prepaid Items

The Board made payment prior to year-end for services that will be performed in the next fiscal year. In these situations, the Board records an asset to reflect the investment in future services.

Inventory

Inventory consists principally of coal and supplies and is stated at the lower of costs, determined principally by the moving average method, or market.

Deposits with MPIA and MPPA

These deposits consist primarily of balances on account which will be returned or utilized for future purchases.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Capital Assets

Capital assets are stated at cost and include items defined by the Board as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at fair value (the price that would be paid to acquire an asset with an equivalent service potential in an orderly market transaction) on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Depreciation on capital assets is computed using the straight-line method over the following estimated useful lives:

	Years
Steam production	5-50
Diesel production	5-33
General plant	5-30
Transmission and distribution	5-33

Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Board has items that qualify for reporting in this category related to the net pension and net OPEB liabilities which is discussed in notes 5 and 6.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board has items that qualify for reporting in this category related to the net pension and net OPEB liabilities which is discussed in notes 5 and 6.

Compensated absences

Eligible employees are permitted to accumulate paid time off benefits in varying amounts based on length of service and other established criteria. Paid time off is accrued when incurred in the Board's financial statements.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees Retirement System (MERS) of Michigan and additions to/deductions from MERS' fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

2. CASH AND CASH EQUIVALENTS

Cash and cash equivalents at year end consisted for deposits with financial institutions as follows:

Cash and cash equivalents

\$16,970,706

The deposits are in financial institutions located in Michigan in varying amounts. State policy limits the Board's investing options to financial institutions located in Michigan. All accounts are in the name of the City of Grand Haven. They are recorded in the Board's records at fair value. Interest is recorded when earned.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Board's deposits may not be returned. State law does not require, and the Board does not have, a policy for deposit custodial credit risk. Insurance coverage pertains to all deposits of the City of Grand Haven; hence, the specific coverage pertaining to the Board's deposits, if any, is not readily determinable. As of year-end the Board had total bank balances of \$16,860,947 that may be exposed to custodial credit risk.

3. CAPITAL ASSETS

Capital asset activity for the year was as follows:

	Balance			Balance
	<u>July 1, 2018</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30, 2019</u>
Capital assets, not being depreciated				
Land	\$ 222,281	\$ -	\$ -	\$ 222,281
Construction in progress	362,706	5,201,236	5,027,700	536,242
Total capital assets, not being depreciated	584,987	5,201,236	5,027,700	758,523

4. LONG-TERM DEBT

The following is a summary of the debt transactions of the Board for the year:

	Balance July 1, <u>2018</u>	Additions Deletions		Balance June 30, 2019	Due With One Y	in	
Compensated absences	\$496,921	\$	-	\$131,563	\$365,358	\$	125

5. RETIREMENT PLANS

Defined Benefit Pension Plan

Plan Description

The Board participates with the City of Grand Haven in the Municipal Employees Retirement System (MERS) of Michigan a defined benefit and hybrid plan providing certain retirement, disability and death benefits to plan members and beneficiaries. The plan information for the Utility is not always separately available from information provided for the City of Grand Haven as a whole. The following information is for the City as a whole unless otherwise noted.

The City participates in the Municipal Employees Retirement System (MERS) of Michigan. MERS is an agent multiple employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at www.mersofmich.com.

Benefits Provided

Pension benefits approved by the City Council are provided to all full-time participating employees based on division/bargaining unit. The plan is closed to new Board employees. Benefits provided include a multiplier of 2.25 to 2.5 times final average compensation. Vesting period of 6 to 10 years. Normal retirement age is 60 with early retirement at 50 to 55 with from 15 to 25 years of service. Final average compensation is calculated based on a 3 year average.

Membership of the defined benefit plan consisted of the following at the date of the latest actuarial valuation (December 31, 2018):

Total City

	Total City
Active plan members	176
Inactive employees or beneficiaries currently receiving benefits	206
Inactive employees entitled but not yet receiving benefits	92
Total	474

Contributions

The Utility is required to contribute at an actuarially determined rate, which for the current year was \$37,257 per month depending on position and classification. Participating employees are required to contribute from 10% of covered payroll to the Plan based on position and classification. The contribution requirements of the Utility are established and may be amended by the MERS Retirement Board. The contribution requirements of employees are established and may be amended by labor agreements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Net Pension Liability

The City's net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an annual actuarial valuation as of that date.

The total pension liability in the December 31, 2018 annual actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation: 2.5%

Salary Increases: base wage inflation of 3.75% in the long-term (plus merit and longevity from 0 to 11% based on age)

Investment rate of return: 7.75%, net of investment expense, including inflation

Mortality rates used for non-disabled plan member were based on a weighted blend of RP-2014 mortality tables of a 50% Male and 50% Female blend. Mortality rates used for disabled plan member were based on a blend of RP-2014 disabled retire mortality tables of a 50% Male and 50% Female blend of disabled retires.

The actuarial assumptions used in the valuation were based on the results of the 2015 actuarial experience study.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return	Expected Money Weighted Rate of Return*
Global Equity	57.5%	6.27%	3.60%
Global Fixed Income	20.0%	3.43%	0.68%
Real Assets	12.5%	5.48%	0.69%
Diversifying Strategies	10.0%	7.81%	0.78%
Inflation			2.00%
Administrative fee		-	0.25%
Investment rate of return		=	8.00%

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Discount rate. The discount rate used to measure the total pension liability is 8.00% which did not change from the prior year. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

•	Increase (Decrease)		
	Plan		
	Total Pension Liability (a)	Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balance at December 31, 2017	\$106,978,445	\$85,233,207	\$21,745,238

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended June 30, 2019 the City recognized pension expense of \$5,634,855. The City reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Differences in experience	
Differences in experience	\$ 8,998
Differences in assumptions	890,277
(Excess) deficit investment returns	6,264,289
Contributions subsequent to the	
measurement date*	949,283
Total	\$8,112,847

^{*} The amount reported as deferred outflows of resources resulting from the contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability for the year ending 2019.

The Board's share of deferred outflows are for changes in assumptions of \$145,752, subsequent contributions of \$443,825, differences in experience of \$1,473 and investment returns of \$1,025,561.

Amounts reported as deferred outflows and inflows of resources related to City pensions (excluding contributions subsequent to the measurement date) will be recognized in pension expense as follows:

2020	\$3,274,022
2021	831,153
2022	1,042,054
2023	2,016,335
2024	-
Thereafter	
Total	\$7,163,564

Defined Contribution Plan (401a Plan)

The Board provides a defined contribution pension plan (the Plan) that provides pension benefits to all participating full-time employees. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are required to participate after six months of employment. Employees are required to contribute 4% and the Board contributes 8% of each participant's compensation to the Plan. The Board's contributions are fully vested after four years of service. During the year employees contributed \$54,250 and the Board contributed \$108,501 to the plan.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

6. POST-EMPLOYMENT BENEFITS

Plan Description

The Board participates with the City in a single-employer defined benefit healthcare plan (the Retiree Health Plan). The plan provides health insurance premiums for retirees and their beneficiaries, which are advance-funded on a discretionary basis. Benefit provisions are established through the City's pension ordinance and negotiations between the Board and bargaining units and employee groups. The plan was closed to employees hired subsequent to September 30, 2013. The Retiree Health Plan does not issue a publicly available financial report and a legal trust has been established for the plan. The following information is for the City as a whole unless otherwise noted. The method used to determine the actuarial valuation of assets is market. There are no long-term contracts for contributions to the Plan. The plan has no legally required reserves.

Benefits provided

In accordance with the collective bargaining agreements, retirees receive an employer-paid benefit toward health and life insurance premiums for the retiree and spouse. For employees hired before October 1, 2013 the Plan pay from 75% to 80% of the premium payment until age 65 and 0-10% thereafter.

Membership of the Plan consisted of the following at the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	68
Covered spouses	34
Active plan members	86
Total	188

Net OPEB Liability

The net OPEB liability was calculated using roll forward procedures through June 30, 2019 based on an actuarial valuation as of June 30, 2018. The total OPEB liability in the June 30, 2018 annual actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation: 2.5 % (2.99% in 2017)

Salary Increases: 2.0%

Investment rate of return: 5.25%, net of investment expense, including inflation

20 - year Aa Municipal Bond rate: 3.00%

Healthcare cost trend rates: 7% graded down 0.5% to an ultimate rate of 5%

As set forth in IRS Regulations for 2018 (1.430(h)(3)) for non-annuitants, separately for males and females as well as annuitants and non-annuitants. Based on RP-2000 Tables with Scale AA.

The actuarial assumptions used in the valuation were based on the results of the most recent actuarial experience study.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

The long-term expected rate of return on OPEB plan investments was determined using a building-block model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Expected
Asset Class	Target Allocation	Rate of Return
Global Equity	55.5%	6.15%
Global Fixed Income	18.5%	1.26%
Real Assets	13.5%	7.22%
Diversifying Strategies	12.5%	5.00%
Cash	0.0%	0.00%

The City, as plan sponsor and investment fiduciary, has chosen for the Plan an asset mix intended to meet or exceed a long-term rate of return of 5.25%.

Concentrations. 100% of the Plan's investments are invested in the MERS total market portfolio.

Rate of return. For the year ended June 30, 2019, the annual money-weighted rate of return on investments, net of investment expense, was 2.86 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount rate. The discount rate used to measure the total OPEB liability is 7.75%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate used for the beginning of year total OPEB liability was 7.75%.

Year ended June 30	Annual OPEB Cost	Net OPEB Obligation	Percentage Funded
2015	\$137,545	\$185,419	74%
2016	199,381	191,811	104%
2017	215,813	215,813	100%

NOTES TO THE FINANCIAL STATEMENTS

Defined Contribution Plan (MERS Healthcare Savings Program)

The Board provides a defined contribution post-employment benefit plan (the Plan) that provides a health care saving account to eligible employees hired after September 30, 2008. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are required to participate immediately upon employment. Employees are required to contribute 1% and the Board contributes 2% of each participant's compensation to the Plan. The Board's contributions are fully vested after five years of service. During the year employees contributed \$27,655 and the Board contributed \$42,516 to the plan.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

7. RISK MANAGEMENT

The Board is insured for employee medical benefits through the City's self-insurance program which charges premiums to the Board for coverage (City internal service fund). The City estimates the liability for claims that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported.

The Board is exposed to various risks related to liability, damage or loss for which it participated in the creation of a self-insurance program known as the Michigan Professional Insurance Authority (MPIA). The MPIA was established pursuant to the State of Michigan Act 35 of 1951; Intergovernmental Contracts between Municipal Corporations.

MPIA administers an actuarially based risk management fund and utilizes such funds deposited by the Board to defend and protect the Board. MPIA has purchased commercial insurance for coverage in excess of the Board's self-insured reserve limits. MPIA assumes all risk of loss within the scope of the memorandum of coverage to the extent of the coverage limits offered by the memorandum.

Following is insurance coverage and related deductibles in effect at year end:

	<u>Deductible/Retention</u>					
	<u>2018</u>	<u>2019</u>				
Property and equipment	\$50,000 - 500,000	\$50,000 - 500,000				
General liability	50,000	50,000				
Public officials liability	50,000	50,000				
Employee benefits liability	100,000	50,000				
Crime	25,000	25,000				
Cyber security	None	25,000				
Open cargo	1% of value	None				

The Board makes annual payment to the MPIA for administrative charges, insurance purchases and an estimated risk retention reserves. At year end the risk retention reserve balance held by the MPIA for the Board was \$3,908,752 which excluded assets set aside for estimated claims of \$69,500. The estimated claims at the end of the year included claims already incurred and reported as well as an estimate for claims incurred but not reported. Claim liabilities are calculated considering the effects of inflation and recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors. Settled claims have not exceeded insurance coverage in any of the past three years, and changes in insurance coverage are reflected above

The claims liability for the Board as reported by the MPIA for the year's ended June 30, 2019 and 2018 was \$69,500 and \$69,500, respectively. Claims adjustment expense cannot be specifically identified to each participant in the MPIA. Total claims expense reported by the MPIA for the years ended June 30, 2019 and 2018 was \$0 and \$2,452, respectively.

8. JOINT VENTURE

The Board is a member of a joint venture, the Michigan Public Power Agency (MPPA), with 16 other municipal electric systems. The MPPA was formed to undertake the planning, financing, development, acquisition, construction, improvement, operation and maintenance of projects to supply electric power and energy for present or future needs of its members. Each MPPA member is a municipal corporation organized under the laws of the State of Michigan and owns and operates a municipal electric system. Complete financial statements for the Michigan Public Power Agency can be obtained from the administrative offices at 809 Centennial Way, Lansing, Michigan 48917.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

The MPPA operates various projects. The Board currently participates in the Transmission Project, Granger Project, North American Natural Resources Project, and the Energy Service Project. The dollar amount of Board's commitments for participation in the various MPPA projects of \$90,000,000 declines from a high of approximately \$5,200,000 in 2025 to zero in 2047.

The Transmission Project was financed with initial capital contributions of 13 MPPA participants which were utilized to purchase an undivided interest in the transmission grid by the MPPA.

The Granger and North American Natural Resources (NANR) Projects are landfill renewable energy programs operated by the MPPA which provides MPPA participants with renewable energy to meet Michigan Public Act 295 requirements.

The Energy Services Project provides 21 MPPA participants with capacity and energy provided by third parties through the MPPA.

During the current year the Board had the following transactions with the MPPA:

Electricity purchase from/through MPPA	\$4,536,203
Payments to MPPA for electricity transmission	1,319,846
Payments to MPPA for renewable energy	2,288,388
Payments to MPPA for other	410,547

9. RELATED PARTY TRANSACTIONS

City-owned facilities are users of Board electric services. The Board includes the sale of such services in its charges for services revenue and reflects balances receivable for these services as accounts receivable. The Board is required to pay five percent of gross retail sales to the City under provisions of the City Charter. The payment of the five percent of gross sales to the City is reported as transfers out to the City of Grand Haven.

10. LITIGATION

In the normal course of its activities, the Board is a party to various legal actions and subject to certain asserted and unasserted claims and assessments. Although some actions have been brought, the Board has not experienced significant losses or costs. The Board is of the opinion that the outcome of any pending actions will not have a material effect on the Board's financial position or results of operations.

11. COMMITMENTS

The Board has entered into an agreement to transfer a portion of electric revenue generated at the Grand Landing location to help fund payment of component unit debt. These transfers began during 2016 and are contingent upon electric sales revenue and future development at the Grand Landing location. The agreement provides for contingent transfers through 2019.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2019

12. ASSET RETIREMENT

The Board has announced plans for the closure of the Sims III 70 megawatt coal fired power plant in fiscal year 2020. The Board has contracted for the sale of any remaining coal at the time of closure.

The Board's operation of electricity generating facilities required use of fuel and ash management facilities that will require environmental remediation under various state and federal laws upon plant closure. The Board has estimated the cost of remediating fuel and ash management facilities at \$1,500,000 based on known costs of similar plant closures and engineering estimates. The Board's fuel and ash management facilities have an insignificant estimated remaining useful life.

13. RESTATEMENT

GASB statement Number 83 "Certain Asset Retirement Obligations" was implemented during 2019 which resulted in a reduction of \$1,500,000 in the Board's net position at July 1, 2018 to reflect the Board's asset retirement obligation.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 30, 2019

Board of Directors
Grand Haven Board of Light and Power
Grand Haven, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Grand Haven Board of Light and Power, Grand Haven, Michigan (the Board) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated September 30, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
