

Grand Haven Board of Light & Power Commercial & Industrial

The GHBLP'S Energy Smart Program makes it easy and more affordable for commercial & industrial businesses to reduce energy consumption and overall electric charges with rebates on qualifying prescriptive and custom energy saving updates. Whether you run a restaurant, small shop, retail store, or large industrial business, the BLP can help you gain a competitive advantage through energy-efficient improvements.

Ready to start your project? Follow these 3 simple steps.

Step #1: Request Pre-Approval

COMPLETE AND SUBMIT YOUR APPLICATION DOCUMENTS TO:

Energy Smart - Grand Haven BLP
1400 Abbot Rd. Suite 400, East Lansing, MI 48823
Fax 517-203-0658 | **Email** energysmart@franklinenergy.com

Step #2: Complete Your Project

If your project meets the pre-approval criteria, you will receive a letter indicating funds have been reserved.

Step #3: Collect Your Cash Incentive

Once your project is complete, it's time to request your cash incentive. Within 30 days of project completion, submit the signed Payment Approval Agreement and itemized invoices to Franklin Energy and schedule your on-site audit.

Need help? Simply contact one of our expert Energy Advisors at **1- 877-674-7281** and they will assist you with the application process.

The full application can be found on-line at

Prescriptive Project: LED Lighting Upgrades

Energy Savings Achieved: 73,695 kWh

GHBLP Rebates Received: \$5,882

Jost International - 335 Griffin

Prescriptive Project: VSD Air Compressor

Energy Savings Achieved: 69,500 kWh

GHBLP Rebates Received: \$7,500

“At Walmart, we are always looking for ways to reduce our energy cost and usage. One of the quickest ways for us to reduce energy consumption is by replacing our T8 lighting with LED lighting. At our Grand Haven, MI store we upgraded to LED lighting, including the main sales floor, back areas, and even the case lighting. With the help of GHBLP and Franklin Energy, the incentive process was easy, and they helped us offset the cost of the project with a \$20,000 incentive. Through their program, we were able to reduce our costs and obtain substantial energy savings. The store feels and looks much brighter and inviting.”

Richard Mynatt,
Regional Energy Manager for Walmart
