

# Can You Dig It?

Contact MISSDIG811 before underground projects.

An underground utility line is **damaged once every 9 minutes** because someone didn't call 811.

Call 811, the "Call Before You Dig Number," at least **3 business days** prior to digging.

811 locators **do not detect** underground sprinkler systems, invisible fences, data communication systems, private water systems, or gas piping to a garage.

Even if you have previously had underground utilities marked, conditions can change and **it's the law** to always call before you dig.

Once all utilities have provided you with a Positive Response, you are required to hand expose any utilities located within 4 feet of the dig site.

# WORK ZONE AWARENESS

## Work Zone Safety Tips

- Pay attention. Conditions can change quickly.
- Drop distractions and drive.
- Give heavy vehicles room to adjust to conditions.
- Move over for workers.
- Remember: Traffic backups can occur at any time.
- Slow down and obey speed limits.
